Easter Reflection

“This is what the Pasch of the Lord accomplishes: it motivates us to move forward, to leave behind our sense of defeat, to roll away the stone of the tombs in which we often imprison our hope, and to look with confidence to the future, for Christ is risen and has changed the direction of history. Yet, to do this, the Pasch of the Lord takes us back to the grace of our own past; it brings us back to Galilee, where our love story with Jesus began, where the first call took place. In other words, it asks us to relive that moment, that situation, that experience in which we met the Lord, experienced his love and received a radiantly new way of seeing ourselves, the world around us and the mystery of life itself.”

Pope Francis
